REPORT Of The SELECTMEN

1967 was another busy and productive year for the Town of Jaffrey. Several projects were started and completed during the year.

SEWERS. A much needed spur sewer line to serve Cheshire Village was started during 1967. This will take care of the lower street and the upper street will be completed during the coming Spring season. Another spur line was installed off Old Peterborough Road to take care of an existing unsanitary condition in that area.

INTERCECEPTING SEWER FROM SAWTELLE ROAD TO NORTH STREET. This construction approved by the Town Meeting of 1967 had to be postponed until a later date due to the unavailability of Federal Funds.

TOWN COMMONS. The Town Common project was completed during the past year. This improvement has greatly enhanced the overall appearance of the area and eliminated some of the traffic congestion in the area. Many favorable comments relative to this improvement have been received by the Selectmen.

TAX MAP. The Tax Map is about complete. It will only necessitate addition and deletions as they occur from year to year.

STREET LIGHTS. The Planning Board is submitting a report for the updating of street lighting in the Town. The Planning Board has submitted a report to the people of the Town, and an article has been inserted in the Town Meeting Warrant requesting an appropriation to carry out the proposed changes.

ROAD WORK AND CONSTRUCTION. A detailed report on this work appears in the Highway Agent's report.

As has been previously stated in other reports, the Selectmen meet every Tuesday evening at 8:00 p.m. in the Selectmen's room in the Jaffrey Town Offices to discuss any problem that may occur with any interested citizen of this Town.

We wish at this time to express our sincere appreciation for the cooperation received by us from the people of Jaffrey.

Respectfully,
WILLIAM W. TORREY
ALFRED J. CHRISTIAN
JAMES P. SMITH

Board of Selectmen

REPORT OF THE JAFFREY PLANNING BOARD

The following is a brief resume of the Planning Board activities for the year 1967.

STREET LIGHTS: A study of the present street light facilities was conducted for the purpose of standardizing and updating present street lighting. As a result of this study specifications were drawn up and submitted to the Selectmen as a guide for future lighting needs. In addition to these specifications, recommendations were made to the Selectmen to implement a program of updating our current lighting facilities. This program is covered by an article in the Town Warrant. The study made by the Planning Board was done with the cooperation and guidance of Public Service and specifications and recommendations made are for the safety and economics of a town the size of Jaffrey.

SUBDIVISION: Rough drafts have been completed for Subdivision regulations pertaining to Jaffrey and are in the process of being reviewed by the State Department of Resources and Economic Development. Upon approval, public hearings will be held before final adoption of the regulations. The public hearings are tentatively scheduled for Spring.

ROUTE 202: Various contacts have been made with local and state officials in effort to determine the developments of improving and/or relocating Route 202. To date no definite decisions have been made to the best knowledge of the Planning Board.

TRAILER ORDINANCE: At the time of this report there is under consideration an ordinance for the regulations of Trailers and Trailer Parks. It is hoped this proposed ordinance will be complete by the annual Town Meeting and appear in the Town Warrant.

POWER LINE: The Planning Board is currently working with various Public Service officials on the proposed route of the new power line to pass through Jaffrey. This line is scheduled to be complete in 1970 and is part of The New England Transmission Service. It is the aim of the Planning Board to determine the best route feasible for the citizens of Jaffrey.

The coming year will be busy for the Planning Board as there are current projects to complete and new areas to pursue. Again it is wished that Jaffrey Citizens feel free to express their opinions and thoughts through any Board member or the public hearings held throughout the year.

Report of the Jaffrey History Committee

TO THE HONORABLE BOARD OF SELECTMEN:

Your History Committee has held many meetings during the past year. At the first of these, Albert J. Morin was chosen secretary and Mrs. Evelyn Ruffle was named treasurer. These meetings have been well attended as all members are vitally interested in the project and are looking for the day when Volume III of the History of Jaffrey is ready.

Work on the narrative section of the History is progressing, with a number of chapters already completed and several are underway.

Families included in the previous genealogical volume that have continued to live in Jaffrey have been carried forward and brought up to date. A large number of families that were not included in that work have now been included and completed and numerous ones are in process of completion. In this connection we wish to add that families who have not been contacted or included so far should get in touch with Alice Lehtinen, so that their family records can be included in the proposed History. The sooner this is done, the sooner will the work be accomplished.

Respectfully submitted,
JAFFREY HISTORY COMMITTEE

HIGHWAY AGENT'S REPORT

TO: The Citizens of Jaffrey, N. H.

I am submitting herewith my sixth annual report as Highway Agent for the Town of Jaffrey for the year ending Dec. 31, 1967.

RECONSTRUCTION OF TOWN COMMON. The common directly in front of the Town Office Building was reconstructed and the road around the common was widened and repaved.

TOWN ROAD AID CONSTRUCTION. Approximately one (1) mile of road on Mills Road was rebuilt under TRA Funds. The remaining unused funds will be used on the Fitzwilliam Road, which is the next proposed TRA project.

SIDEWALKS. The sidewalk on Upper Main Street going up to Prospect Street was built during the past year, as it could not be done in 1966.

ROUTE #124. A stretch of Route #124 was rebuilt under State Supervision. This project dragged throughout the Summer and Fall, and was not completed during the year due to the weather. The removal of the utility poles was the contributing factor to the incompletion of this project.

SEWERS. A short stretch of sewer was installed off Old Peterborough Road, eliminating an old septic tank in the field.

CHESHIRE VILLAGE SEWER. This project was started during 1967, and is about 60% completed. This sewer project will be completed in the Spring as soon as weather permits.

STREETS. Improvements to the streets in the compact area was started in 1966, and Aetna, Union, School and Charlonne Streets, Old Peterborough Road, Cross Street, and part of Brook Street was done in 1967. This project will be continued in 1968.

A violent storm last Summer cut a swath through Jaffrey blowing down many trees and blocking several roads. It took the department the better part of two weeks to clean up the debris.

Regular maintenance included resurfacing of secondary roads, scraping gravel roads, cleaning ditches and cutting brush along the roadside.

The Highway Department was very happy when the Town voted to purchase a street sweeper. The sweeping of streets is a dirty and back-breaking job, which usually took about six weeks every Spring. With this sweeper however, the streets can be cleaned in one week. The sweeper was received on July 12, 1967 and record of the mileage was kept; the sweeping miles totaled 272 and the engine 105 hours; 199 cubic yards of debris and sand were picked up between July 12 and the beginning of winter. This year we should double the yardage as it will be available immediately following the Spring thaw. It is the opinion of the department that this was a good investment for the Town.

A stone bridge on Gilmore Pond Road was investigated this year and found to be in a state of decay. An 8' culvert is recommended of a type that should last indefinitely.

I wish at this time to thank the Board of Selectmen, Town Clerk, Police Department and all others who have helped in the operation of this department during the past year.

Respectively,
RICHARD H. WILSON,
Highway Agent.

REPORT OF FOREST FIRE WARDEN & DISTRICT CHIEF

The year of 1967 will go down in history as a wet year although the early spring was dry and windy. During this time, we had many fires, unnecessary fires caused by carelessness and disregard for the common-sense fire laws and regulations. This lack of responsibility on the part of a few people hurts everyone. Let's work together to prevent the start of those unnecessary fires by:

1. No burning between 9:00 A.M. - 5:00 P.M. and then only with a permit from the Forest Fire Warden.
2. Take all debris and waste to the town dump.
3. Keep a clean, safe town dump.
4. Urge close supervision of children in regard to use of matches.
5. Exercise care with smoking material - use the ashtray.

MUNICIPAL AIRPARK

During 1967 the following maintenance and improvements were accomplished:

1. Runway paving cracks sealed.
2. Car parking area enlarged and paved.
3. Rough grading completed for new aircraft parking apron.
4. Most earthwork was completed for the six hundred foot extension approved at the Special Town Meeting of August 9, 1967; final grading and paving will be completed by June 1, 1968; total cost is estimated to be less than $20,000, all of which has been (or is pledged to be) raised from private sources in accordance with the terms provided for in the authorizing motion; on completion, total runway length will be approximately three thousand feet.
5. Late in the year, the N. H. Aeronautics Commission completed negotiations with the Monadnock Rod and Gun Club to use a portion of the Club's land near the Peterborough Town Line for installation of a low frequency radio homing beacon; this navigation aid will enable pilots to find the field more precisely during periods of low visibility; cost of installation and maintenance will be borne by the State.

There were 646 transient aircraft registered at the field during the year. Many pilots fail to register and actual transient traffic is considerably more than the actual registration figures.

SCHOOL PROGRAM

B. JAFFREY GRADE SCHOOL

The report this year will center around the many aspects of the curriculum. Next to the teaching staff, the curriculum and its related areas are the backbone of an elementary school.

Curriculum studies are being carried on in Union 47 in the areas of language and mathematics. The towns of Antrim, Bennington, Francestown, Greenfield and Temple are also included in the group as they will become part of Union 47 on July 1, 1968.

The language committee is continuing the work started last year. The big question facing this group in the selection of a basic text is, "How large a part will linguistics occupy in the English programs of the future?" Mary Hamilton is representing the school on this committee.

On the arithmetic study group from the school are Mr. Craig, chairman, and Mrs. Dorothea Hammond. This committee is evaluating the various systems now being used in the participating schools and studying the books that have come on the market within the last few years.

The new science series adopted by Union 47 last year and placed in grades 1, 2, and 3 were installed in grades 4, 5, and 6 in September. Besides having a basic text for all grades, filmstrips and science kits for each grade level are provided. In addition, a consultant from the company was at school to work with the teachers regarding techniques in the use of this series.

The 1960's editions of the Scott Foresman reading system was extended to grade six when school opened in the fall. This company is constantly producing materials to help the accelerated reader as well as the slower one. These are being added to the curriculum as they are needed.

The school TV programs now available have been increased from the early beginnings. While being used more and more, they do not form the basic programs but rather supplement and enrich the regular subject areas. Some programs are seen every week while others are viewed only when closely related to a subject being studied. The following programs are being used: World of Change, Alive and About, Our New Hampshire, Land and Sea, Places in the News, Story Time, Parlons Francais 1, Meet the Arts, Exploring Nature, Music USA and Singing Sounds.

The sixth grade is using a new weekly filmstrip program called VEC News Program which is published by the Visual Education Consultant Inc. as a filmstrip presentation of current events. This is prepared by educators and is being used by more than 12,000 teachers throughout the nation. It was made available to the school through the courtesy of the Keene Evening Sentinel.

Since the last report was written two sixth grade classes have attended Sargent Camp for a week. Last year's class went in May of 1967, and the present group in October of this year. Mrs. Gloria Kaminski accompanied both groups.

For the first time the fourth graders took a trip to Plymouth Plantation at Plymouth, Mass. in conjunction with their social studies. The fifth grade made its annual trip to Boston and the other grades had short trips to local areas.

About 15 students of the Grade School from the fifth and sixth grades are members of the Junior Band at Conant.

Mrs. Dorothea Hammond and Mrs. Dorothy Kendall completed the course, "Child Growth and Development" at Keene State College while Francis Clark took the course, "Survey of Computors" at Monadnock College and "Elementary Counseling"-at U.N.H.

Martha Hadley, a 1967, graduate of Keene State College, was hired to teach the second section of grade 2.

C. CONANT HIGH SCHOOL

A decrease in student population was noted this year with 404 students registering on the first day of school. A marked decrease in students was found in grade 7 largely due to the expansion to grade seven at Saint Patrick School. Three divisions were retained in grade seven. However, with the prospect of a similar expansion to grade eight by Saint Patrick School, it would seem that an evaluation must be made of the number of divisions to be provided for next year.

A study of the mathematics offerings had been made, and a new program has been effected. The new mathematics program is correlated from grade seven to twelve, with the addition of the introduction of Calculus, and Statistics-probabilities as a possible foundation for an advanced studies program. Some basic equipment is being planned for purchase in order to form a mathematics laboratory. A course in sociology was added to the curriculum.

The mechanical drafting room was completed with the addition of four drafting machines. Major equipment replacements were: a. two calculators b. five typewriters, c. verti-

cal milling machine.

This year we have had the normal number of staff changes. The following faculty members have been added: Mr. Bruce Edwards, physical education and coaching, Miss Patricia Fifield, physical education, Miss Betsy David, business education, Mrs. Betty Donovan, grade 7 science, Miss Lillian Nims, mathematics, Mr. Hugh O'Connell, art, Miss Margaret Upton, grade 7 English. Noted with pleasure is the return of Mrs. Hergren after a year's absence.

A complete study was made during the past year for a regional school. The results of this study will provide for a springboard from which the citizens of Jaffrey can determine future educational plans.

I feel it important to give advanced notice of the impending reevaluation of Conant High School by the New England Association of Colleges and Secondary Schools in 1970. Particular thought must be given to this fact at this time in order that a positive evaluation will be forthcoming at that time. A complete evaluation is made every ten years.

In conclusion, it is with deep gratitude to the Jaffrey citizens, the Superintendent and his staff, an excellent faculty, and an eager student body, whose composite enthusiasm and hard work have made the year a success.

PART VI AUXILIARY ACTIVITIES AND SPECIAL REPORTS

A. Health

The policy of the Jaffrey school health services remains unchanged; to keep the children well; to help promote normal growth; to correct any condition which might prevent best work in school.

Dr. Franklin Sterling continues as school physician by appointment of the School Board. He continues his policy of examining the odd-numbered grades every year so that each child receives an examination every other year. He also examines pupils as the need arises, including all sports participants. His examination consists of a check of the chest including heart and lungs. He checks nose, ears and eyes, and gives special attention to dental and throat conditions. He notes general appearance of skin and nutrition as well as posture. Each boy is checked for possible hernia or genital abnormalities.

The school doctor does not treat or prescribe. If any condition is found, the parents are notified by the school nurse and asked to take their child to their own physician or dentist for treatment. The doctor is available for advice in emergencies. He administers the immunizing shots in the disease prevention programs such as the measles and flu vaccines.

The services of a full-time nurse are provided by the School Board. Some of her duties are:

To see that each child has a disease census and health record card.

To carry out the inspection of all pupils.

To assist the school physician in the examination of the pupils in the odd-numbered grades, followed by notices to parents, and by home visits or phone calls.

To conduct vision and hearing tests and carry out necessary follow-up work to help with corrections.

To stimulate interest and assist at all clinics: dental; T.B.; eye; immunization, etc.

To assist in the control of communicable disease through teaching the recognition of early symptoms, the importance of isolation and the value of immunization.

To inspect pupils and take heights and weights and record all data on the health record cards.

To make monthly reports and records.

To show the value of adequate health supervision and facilities for medical aid and to assist in securing the correction of defects.

To help conduct the spring round-up and enrollment of entering pupils, with a health history entered on the health record card, as well as screening of vision, hearing, and general health.

To develop relationships and to coordinate school health activities with resources of school, home, and community.

To act as a visiting teacher; the link between home and school.

COMMUNICABLE DISEASE CONTROL

Jaffrey apparently had its run of Flu but at no time were enough pupils out to force closing of schools. All school personnel were immunized early. Colds remain our problem. They are communicable and children who show symptoms should remain at home. Sending a half sick child to school for the nurse to inspect is dangerous to the child and exposes other children before he or she can be returned home; particularly bus children for they are in close contact with others.

Sneezing and coughing; a newly wet running nose; red watery eyes; sore or inflamed throat; headache; vomiting; or general malaise; a rash; all these symptoms should be looked upon as signs of a communicable disease.

DENTAL CLINIC

A dental clinic sponsored by the Jaffrey Woman's Club was conducted. It enabled 35 pupils, who could not have received complete dental work any other way, to be done. This involved 20 clinics. There were 150 fillings and 13 extractions. Dr. Harold Goodman was the dentist.

GLASSES

Those pupils needing glasses who were unable to afford them were helped with the fund provided for the purpose by the Jaffrey Community League. The pupils who were fitted showed a noticeable improvement in school work.
